Short description from the host organization	The kindergarten has four special education groups for children aged between one and seven years. In addition, two cribs groups for children between one and three years of age. The management of the daycare is provided by a Dipl. Social worker, supported by a Dipl. Psychologist. In the groups work educators and staff with medical and therapeutic, educational degree. Due targeted training our educational staff has special qualifications such as the basal stimulation and rhythm. An important operating principle is an appreciative, interdisciplinary cooperation.
